SWING ANALYSIS	The swing analysis option is an excellent way to distinguish your golf day from your run of the mill golf day. What we offer is a complete analysis of your client's swing. We make use of two cameras and V1 analysis software. As a result of using two cameras we capture the swing from both the front view and the back view. These views are then digitally synchronized and then analyzed to provide an in depth look at the mechanics of the individual's golf swing. In addition, company logos can be added to the viewer which your clients then receive. The analysis is completed within two to three working days of the event. The swings are then mailed to the golf day participants. 20-40 R6700.00 41-72 R9400.00 73-144 R12 200.00
